## GEAR UP

BY BEN FROMSON

Fire  
it UP!

These tools will help make  
your grill the hottest spot in  
your neighborhood.

**Flex Time**

**Fire Wire Flexible Grilling Skewer** This ingenious little device makes grilling with skewers simple. Besides holding twice as much as a traditional skewer, the flexible cable allows for better use of the grilling area. Plus, it's made of 100 percent stainless steel, so it won't rust, it's easy to clean, and it stays cool enough to turn or remove food from the grill without using mitts or utensils.

**\$15** for set of two

**Lighten Up****Outset Magnetic Light**

If you've ever spent an evening fumbling with a flashlight while trying to flip steaks at just the right moment, this compact light is for you. It attaches via magnet to most grilling tools and swivels in any direction so you can point it where you need to.

**\$15**

**Clean-Up Crew**

**Grill Daddy** A steam-powered grill brush? In a way, yes. Heat up your grill, fill the Grill Daddy brush handle with water, start brushing, and watch as the water turns to steam and easily washes away all that baked-on grime from your last cookout.
